## OBJECTIVE

Obtain a position as a Full Stack Web Developer with a progressive company that promotes teamwork, applies innovative ideas and ultimately seeks customer satisfaction. Recently earned a certificate in full stack development from the University of North Carolina at Chapel Hill, with newly developed skills in CSS, JavaScript and responsive web design. A self-motivated problem-solver utilizing my background in retail management to build a more intuitive user experience on the web with a balance of design and functionality.

## PROGRAMMING LANGUAGES

HTML, CSS, JavaScript, jQuery

## DEVELOPER TOOLS

Bootstrap, Codepen, Github, Gitlab, Terminal, Microsoft Office Suite
